

**B**eauty Formulas **New Skin Facial Wash** with Glycolic Acid, a naturally occurring Alpha Hydroxy Acid (AHA) that works on the dead skin cells of the skin's surface. Optimized pH formulations allow the Glycolic Acid to deliver effective exfoliation. Combined with Lactic Acid and Salicylic Acid to create an active Hydroxy Acid complex to rejuvenate dull, lifeless skin, leaving you feeling smoother, brighter and fresher. It is Paraben, colour & Silicone Free.
